

# Budgie Mutations

## Standard Requirement, for Lutinos and Albinos

Albinos Albinos

# Budgie Mutations

Above Lutino

Over Patch

Body Colour - on the Lutino would be White on the Albino

Tail Feather

The Albino shall be clear white without any blue or brown tinge.  
The Lutino shall be clear yellow without any green or brown tinge.  
The normal body colour should be a rich buff/straw yellow.  
For both there shall be no markings at all.  
The best way to investigate 100 tinge is to look at the upper rump in bright daylight.
